

# ID2Office v1.0

Convert InDesign® to Office 2007-2011 format

# ID2Office® v1.0 (InDesign® to Office)

ID2Office is an Adobe® InDesign® tool to convert InDesign files to the Microsoft® Office file formats. ID2Office converts InDesign files to the appropriate Microsoft Word or PowerPoint file type.

ID2Office saves you valuable time in recreating InDesign® content in Microsoft Word/PowerPoint as the InDesign file content and layout structure is maintained.

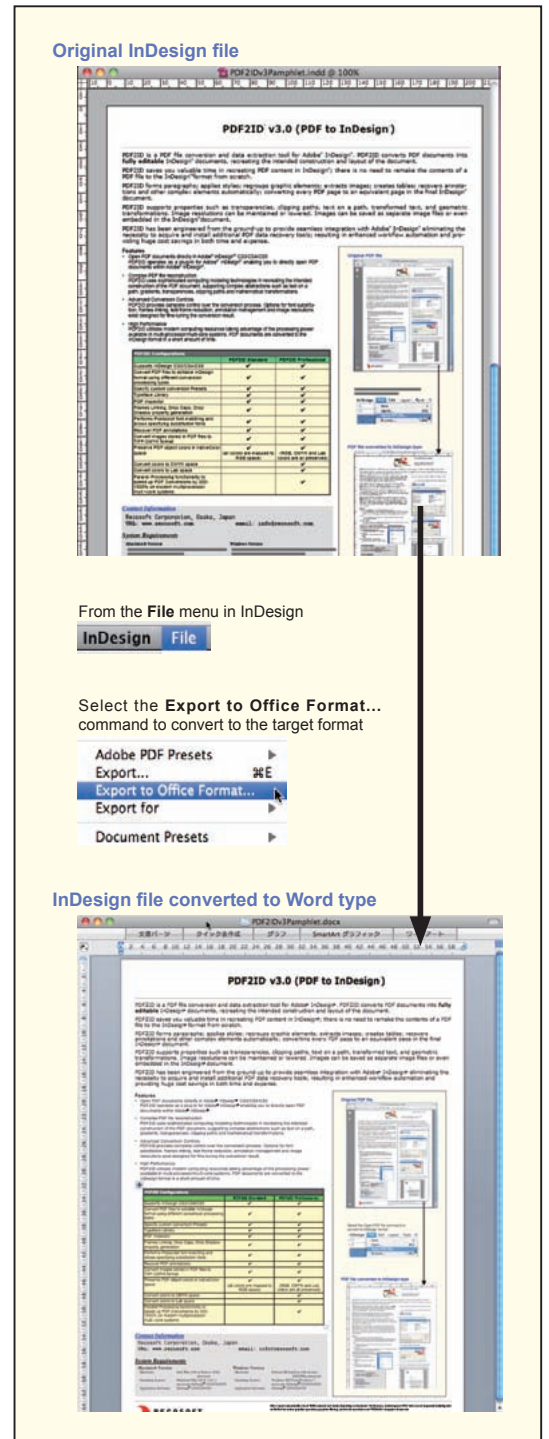

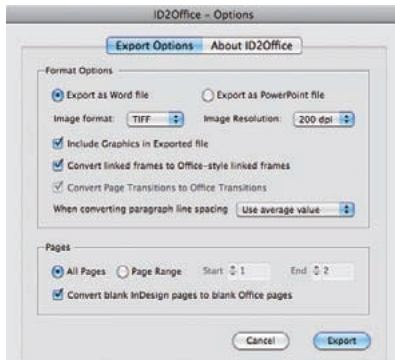

ID2Office converts the text, associated fonts, paragraph structure, corresponding property information, frames linking information, tables, graphics and other InDesign object and document properties to the corresponding Microsoft Office property format; converting every page to an equivalent page to the final Word/PowerPoint document type.

During the export process, ID2Office inspects the layout and structural details of the InDesign document replicating the layout of the InDesign document to the Word/PowerPoint file type.

ID2Office has been engineered from the ground-up to provide seamless integration with Adobe® InDesign® eliminating the necessity to acquire and install additional tools; resulting in enhanced workflow automation and providing huge cost savings in both time and expense.

## Features

- Supports Adobe® InDesign® CS4/CS5  
ID2Office operates as a plug-in for Adobe® InDesign® enabling you to directly convert InDesign® CS4/CS5 documents to the target Office format.
- Save to Office 2007-2011 formats  
ID2Office converts the InDesign file to the latest Microsoft® Word/PowerPoint 2007-2011 type.
- Accurate Conversion  
ID2Office maintains the layout of the document when converted to the Word/PowerPoint type. Paragraphs, Tables, Graphics, and other object property information are converted appropriately.
- Detailed Conversion Controls  
ID2Office provides precise control over the conversion process. Options for image type, image resolution, frames linking, paragraph spacing controls exist designed for fine-tuning the conversion result.
- Export specific pages  
ID2Office allows you to convert either the entire InDesign file or a specific range of pages to the corresponding Word/PowerPoint file type.
- Convert InDesign Page Transitions  
Convert InDesign Page Transitions to PowerPoint style Page Transitions.
- Multi-language support  
ID2Office supports, English, Western European, Russian, Greek, Cyrillic, Chinese, Korean and Japanese Text.
- Quick  
ID2Office converts the InDesign file within seconds.
